## Health and Safety Policy

At **Steelcon Technovision Pvt. Ltd.** the health and safety of our employees, customers, and the environment is our top priority. We are committed to creating and maintaining a safe and healthy work environment for all individuals involved in our operations. To achieve this, we adhere to the following principles:

- 1. Compliance:** We comply with all relevant health and safety laws, regulations, and standards applicable to our industry and strive to exceed these requirements whenever possible.
- 2. Risk Management:** We identify, evaluate, and minimise health and safety hazards connected with our pressure vessel manufacturing processes through regular inspections, hazard assessments, and the deployment of suitable controls.
- 3. Training and Awareness:** We provide extensive health and safety training to all employees, contractors, workers and visitors to ensure they are aware of potential hazards, proper procedures, and emergency protocols.
- 4. Continuous Improvement:** We continuously evaluate and improve our health and safety practices through regular reviews, feedback mechanisms, and participation in industry best practices.
- 5. Personal Protective Equipment (PPE):** We provide and require the use of appropriate personal protective equipment to minimize risks and ensure the safety of our workforce.
- 6. Emergency Preparedness:** We maintain effective emergency response plans and procedures to promptly address any incidents or accidents that may occur in our facilities.
- 7. Environmental Responsibility:** We integrate environmental considerations into our health and safety practices, striving to minimize our environmental footprint and promote sustainability in all aspects of our operations.

By adhering to these principles, we demonstrate our commitment to ensuring a safe and healthy workplace for our employees while delivering high-quality pressure vessels to our customers across various industries.
